Concrete Sand

High Quality Consistent Natural Sand

High Strength Performance

FEATURES

Concrete Sand is a high-quality natural sand, that offers superior consistency. This Concrete Sand was designed with and specifically for the Concrete Industry. The sand resource characteristics differ to that of other operations and the sand has natural hardness and shape that has the potential to offer benefits such as water reduction and also the potential to reduce other binder requirements in concrete mixes.

Moisture and Quality is tested daily by the on-site lab that is ISO 9001 Accredited.
